

FREQUENTLY ASKED QUESTIONS

01. What happens if I join this study?

You will complete a survey that includes questions about your background, contact info, health, caregiving status, and research preferences.

02. Can I stop being in the study?

Yes, you can stop at any time, and it won't affect your benefits or care. Previously collected data will remain unless you request its removal.

03. How will my information be used?

If you are potentially eligible for a CARE-supported study, your name, contact info, and preferred language will be shared with approved researchers.

In addition, researchers may share the information you provide, without linking it to any personal details, for future studies without asking for your permission again.

04. What side effects or risks can I expect from being in the study?

Some of the survey questions may make you feel uncomfortable or raise unpleasant memories. We encourage you to answer as many questions as possible. You can choose not to complete the enrollment survey at any time.

05. Will information about me be kept private?

Yes, we will make efforts to keep your information private, but it may be shared if required by law.

Your personal details will not be used in publications or presentations.

Authorized representatives may review your data for monitoring or managing the conduct of this study.
